History

Trask Ulgo is a Republic soldier. He served on the Republic capital vessel the Endar Spire. The ship was taken over by Sith forces near Taris. He aided a new recruit on the ship to the escape pods. We later learn that this new recruit was an amnesiac Darth Revan. However Trask did not escape with Revan, on their way to the escape pods they were separated when Trask stayed behind to fend off a group of Sith fighters. Because he was only playable for this brief moment in the game, little is known about him. Trask's fate is still unknown. It is assumed he was killed when the Endar Spire was destroyed.
