Old-Republic press Conference:

Sion and myself have been and shall continue to work hard in the production of a new rule system for the RPG. So far we have made some changes, but we are currently working on a more revolutionary gameplay and proffession sytem.

All I can say is that new features syuch as new weapons, armor, professions, etc, will be available. Combat is also being rethought.

While major updates shall be posted here on the homepage, please check the RPG forum for more detailed news.

If you have any suggestions, please post them in the forum section of Old Republic.

Thank You.
